Nil

5. SERVICES OFFERED:

A) DISCRETIONARY PORTFOLIO MANAGEMENT SERVICES:

I. Investment Approach: All Weather Strategy (Equity Strategy)

- a) **Investment objective:** The investment objective is to generate alpha over benchmark using smart beta factor-based scoring along with multi-asset strategy. The strategy aims to outperform the benchmark over medium to long term based on a portfolio constructed across equities, debt and gold. Allocation of equities is further based on momentum style smart beta factor.
- b) **Description of types of securities e.g. equity or debt, listed or unlisted, convertible instruments, etc.:** Consistent with the investment objective and subject to the SEBI Regulations, the Client's funds may be invested in such securities of Companies listed on the National Stock Exchange of India Limited (NSE) and the BSE Limited (BSE), capital and money market instruments or in fixed income securities or variable securities of any description, by whatever name called including -
- i. Equity and equity related securities
 - ii. Debentures (convertible and non-convertible), bonds, secured premium notes, corporate debt (of both public and private sector undertakings), securities issued by banks (both public and private sector) and development financial institutions like certificate of deposits (CDs), coupon bearing bonds, zero coupon bonds and tax-exempt bonds of Indian companies and corporations; and
 - iii. Units of mutual funds (including exchange traded funds (ETFs)).

Cash that is not invested maybe deployed in debt and fixed income securities including money market instruments and units of mutual fund schemes (debt-oriented / income, gilt and liquid/ money market mutual fund schemes), liquid funds or arbitrage funds run by well-established and reputed fund houses and deployed in the market as and when opportunities arise.

- c) **Basis of selection of such types of securities as part of the investment approach:** The selection of stocks is based on a proprietary stock screens based on momentum style smart beta strategy. It is a strategy consisting of smart beta factor that has historically delivered higher risk-adjusted returns.
- d) **Allocation of portfolio across types of securities:** The portfolio Manager uses a multi-asset strategy for asset allocation, which could be revised based on market conditions over time.

The portfolio manager based on multi-asset strategy model would arrive at an indicative equity allocation. This makes the asset allocation process and investment decisions more proactive rather than being reactive to market conditions.

The Portfolio Manager believes that on average it would take 3 – 5 years for its ideas to reach their price potential. It therefore envisages a turnover of approximately 100%+ every year. However, it is cautioned that these numbers are indicative only, and actual results may vary significantly from these 'rules of thumb' depending on the market conditions prevalent during the tenure of the investment.

Depending on the events in the markets the Portfolio Manager would have the flexibility to alter the above allocations.

- e) **Appropriate benchmark to compare performance and basis for choice of benchmark:**

The Clients' portfolio is to be invested in listed equities. The portfolio created could be formed from investments in companies with any market capitalization and so could include large cap and/or mid cap. The proportion of large and mid-cap could vary significantly from time to time.

Therefore, the appropriate benchmark chosen to compare performance of the Portfolio Manager is the S&P BSE 500 TRI.

f) Index Indicative tenure or investment horizon:

The Portfolio Manager will be making investments with a minimum 3-5 years investment horizon, and can be reviewed/amended based on multi-asset strategy.

However, the Portfolio Manager may buy/sell/rebalance the stocks in the Portfolio before the indicative time horizon of 3-5 years for reasons including, but not limited to, the Portfolio Manager's latest views on the attractiveness of the investments made.

g) Risks associated with the investment approach: Please refer clause 6 for Risk Factors

II. Investment Approach: Alpha Compounders (Equity Strategy)

a) Investment objective:

The investment objective is to generate long term wealth by primarily investing in fundamentally sound companies over longer-term holding period. Focus is to identify companies having future growth potential available at attractive valuation. The bottom-up strategy aims to select and invest in good quality, high growth companies that are available at reasonable valuations.

b) Description of types of securities e.g., equity or debt, listed or unlisted, convertible instruments, etc.:

Consistent with the investment objective and subject to the SEBI Regulations, the Client's funds may be invested in such securities of Companies listed on the National Stock Exchange of India Limited (NSE) and the BSE Limited (BSE), capital and money market instruments or in fixed income securities or variable securities of any description, by whatever name called including –

i. Equity and equity related securities

ii. Debentures (convertible and non-convertible), bonds, secured premium notes, corporate debt (of both public and private sector undertakings), securities issued by banks (both public and private sector) and development financial institutions like certificate of deposits (CDs), coupon bearing bonds, zero coupon bonds and tax exempt bonds of Indian companies and corporations; and

iii. Units of mutual funds (including exchange traded funds (ETFs)).

Cash that is not invested may be deployed in debt and fixed income securities including money market instruments and units of mutual fund schemes (debt-oriented / income, gilt and liquid/ money market mutual fund schemes), liquid funds or arbitrage funds run by well-established and reputed fund houses and deployed in the market as and when opportunities arise.

c) Basis of selection of such types of securities as part of the investment approach:

The selection of stocks is based on identifying companies showcasing characteristics like sound management, consistent track record, future potential growth, attractive operational parameters, consistent earnings growth, reasonable valuations, potential for re-rating and sector tailwinds.

d) Allocation of portfolio across types of securities:

The portfolio manager primarily invests in equity and equity related instruments. The portfolio is well diversified to lower the overall volatility of the portfolio.

e) Appropriate benchmark to compare performance and basis for choice of benchmark:

The Clients' portfolio is to be invested in listed equities. The portfolio created could be formed from investments in companies with any market capitalization, being a multi-cap approach. Therefore, the appropriate benchmark chosen to compare performance of the Portfolio Manager is the S&P BSE 500 TRI

f) Index Indicative tenure or investment horizon:

The Portfolio Manager will be making investments with a minimum 3-5 year investment horizon.

g) Risks associated with the investment approach: Please refer clause 6 for Risk Factors

Under the Discretionary portfolio management services, the Portfolio Manager will have the sole and absolute discretion to deploy assets brought in by a client in any type of security as per the Agreement. This may include the responsibility of managing and reshuffling the portfolio, buying and selling securities, keeping safe custody of the securities and monitoring book closures, dividend, bonus, rights etc. so that all benefits accrue to the Client's Portfolio, for an agreed fee structure and for a definite period as described, entirely at the Client's risk.

The Portfolio Manager shall have full and absolute discretion to make investment decisions on the client's behalf in any type of security as per executed Agreement. The Portfolio Manager's decision in deployment of the Clients account is absolute and final and can never be called in question or be open to review at any time during the currency of the agreement or any time thereafter except in the ground of conflict of interest, fraud, malafide intent or gross negligence by the Portfolio Manager. This right of the Portfolio Manager shall be exercised strictly in accordance with the relevant Act, rules and regulations, guidelines and notifications in force from time to time.

The portfolio of a client may differ from that of another client in the same Investment Approach as per the discretion of the Portfolio Manager.

The investment objective is to generate capital appreciation predominantly through investments in equities with a medium to long-term perspective.

The Portfolio Manager will have a market capitalisation and benchmark agnostic strategy with a flexibility to invest across the market capitalization spectrum (i.e., large, mid and small cap companies) and across industries / sectors. The Portfolio Manager will seek to generate superior risk adjusted returns by superior stock selection based on fundamental research of companies, their businesses and the valuations at which they are quoting.

III. Investment Approach: Emerging Businesses (Equity Strategy)

a. Investment objective:

The investment objective is to generate capital appreciation by constructing a portfolio of undervalued companies which will benefit from structural tailwinds leading to strong growth in earning potential along with margin expansion operating under an addressable market with a strong market share. The portfolio will primarily consists of mid and small cap companies having better growth prospects than their large cap peers. The aim is to identify companies very early in their lifecycle where it has the potential to benefit from the underlying fundamentals over the long run.

- b. Description of types of securities e.g., equity or debt, listed or unlisted, convertible instruments, etc.:

Consistent with the investment objective and subject to the SEBI Regulations, the Client's funds may be invested in such securities of Companies listed on the National Stock Exchange of India Limited (NSE) and the BSE Limited (BSE), capital and money market instruments or in fixed income securities or variable securities of any description, by whatever name called including –

- i. Equity and equity related securities
- ii. Debentures (convertible and non-convertible), bonds, secured premium notes, corporate debt (of both public and private sector undertakings), securities issued by banks (both public and private sector) and development financial institutions like certificate of deposits (CDs), coupon bearing bonds, zero coupon bonds and tax exempt bonds of Indian companies and corporations; and
- iii. Units of mutual funds (including exchange traded funds (ETFs)).

Cash that is not invested may be deployed in debt and fixed income securities including money market instruments and units of mutual fund schemes (debt-oriented / income, gilt and liquid/ money market mutual fund schemes), liquid funds or arbitrage funds run by well-established and reputed fund houses and deployed in the market as and when opportunities arise.

- c. Basis of selection of such types of securities as part of the investment approach:

The selection of stocks is based on identifying companies showcasing characteristics like market leader, long term competitive advantage, ability to generate better return on capital employed, manageable debt levels, competitive management, structural tailwind, high margin of safety and sound business quality.

- d. Allocation of portfolio across types of securities:

The portfolio manager primarily invests in equity and equity related instruments. The portfolio is well diversified to lower the overall volatility of the portfolio.

- e. Appropriate benchmark to compare performance and basis for choice of benchmark:

The Clients' portfolio is to be invested in listed equities. The portfolio created would be primarily of mid and small cap companies. Therefore, the appropriate benchmark chosen to compare performance of the Portfolio Manager is the S&P BSE 500 TRI.

- f. Index Indicative tenure or investment horizon:

The Portfolio Manager will be making investments with a minimum 3-5 year investment horizon.

IV. Investment Approach: LEAP Long term opportunities (Equity Strategy)

- a) Investment objective:

The investment objective is to generate superior risk adjusted returns and drive long term wealth creation by investing in high quality companies. The bottom-up strategy aims to select and invest in good quality, high growth companies that are available at reasonable valuations.

- b) Description of types of securities e.g., equity or debt, listed or unlisted, convertible instruments, etc.:

Consistent with the investment objective and subject to the SEBI Regulations, the Client's funds may be invested in such securities of Companies listed on the National Stock Exchange of India Limited (NSE) and the BSE Limited (BSE), capital and money market instruments or in fixed-income securities or variable securities of any description, by whatever name called including –

- i. Equity and equity related securities
- ii. Debentures (convertible and non-convertible), bonds, REITs, secured premium notes, corporate debt (of both public and private sector undertakings), securities issued by banks (both public and private sector) and development financial institutions like certificate of deposits (CDs), coupon bearing bonds, zero coupon bonds and tax exempt bonds of Indian companies and corporations; and
- iii. Units of mutual funds (including exchange traded funds (ETFs)).

Cash that is not invested may be deployed in debt and fixed income securities including money market instruments and units of mutual fund schemes (debt-oriented / income, gilt and liquid/ money market mutual fund schemes), liquid funds or arbitrage funds run by well-established and reputed fund houses and deployed in the market as and when opportunities arise.

- c) Basis of selection of such types of securities as part of the investment approach:

The core selection of stocks is based on identifying companies with attractive long term growth potential, strong management team, consistent track record, attractive operational performance, consistent earnings growth, reasonable valuations, potential for re-rating and sector tailwinds. We would also selectively invest in shorter-term tactical opportunities presented through market dislocations.

- d) Allocation of portfolio across types of securities:

The portfolio manager primarily invests in equity and equity related instruments. The portfolio is well diversified to lower the overall volatility of the portfolio.

- e) Appropriate benchmark to compare performance and basis for choice of benchmark:

The Clients' portfolio is to be invested in listed equities. The portfolio created would be primarily of mid and small cap companies. Therefore, the appropriate benchmark chosen to compare performance of the Portfolio Manager is the S&P BSE 500 TRI.

Index Indicative tenure or investment horizon:

The Portfolio Manager will be making investments with a minimum 3-5 year investment horizon.

V. Investment Approach: Low Volatility Equities (Equity Strategy)

a) **Investment objective:** The investment objective is to generate returns with relatively minimal drawdowns during periods of extreme volatility by investing into a portfolio of stocks having higher price stability.

b) **Description of types of securities e.g. equity or debt, listed or unlisted, convertible instruments, etc.:**

Consistent with the investment objective and subject to the SEBI Regulations, the Client's funds may be invested in such securities of Companies listed on the National Stock Exchange of India Limited (NSE) and the BSE Limited (BSE), capital and money market instruments or in fixed income securities or variable securities of any description, by whatever name called including -

- i. Equity and equity related securities
- ii. Debentures (convertible and non-convertible), bonds, secured premium notes, corporate debt (of both public and private sector undertakings), securities issued by banks (both public and private sector) and development financial institutions like certificate of deposits (CDs), coupon bearing bonds, zero coupon bonds and tax-exempt bonds of Indian companies and corporations; and
- iii. Units of mutual funds (including exchange traded funds (ETFs)).

Cash that is not invested maybe deployed in debt and fixed income securities including money market instruments and units of mutual fund schemes (debt-oriented / Income, gilt and liquid/ money market mutual fund schemes), liquid funds or arbitrage funds run by well-established and reputed fund houses and deployed in the market as and when opportunities arise.

c) **Basis of selection of such types of securities as part of the investment approach:**

The selection of stocks is based on a proprietary stock screens based on low volatility. As markets move in cycles, low volatility factor tends to safeguard the portfolio during times of extreme volatility. Historically, low volatility portfolio tends to fall less compared to market leading to a significant outperformance over a long term.

d) **Allocation of portfolio across types of securities:** The portfolio Manager uses a low volatility factor for equity allocation.

The Portfolio Manager believes that on average it would take 3 – 5 years for its ideas to reach their price potential. It therefore envisages a turnover of approximately 50% every year. However, it is cautioned that these numbers are indicative only, and actual results may vary significantly from these 'rules of thumb' depending on the market conditions prevalent during the tenure of the investment.

Depending on the events in the markets the Portfolio Manager would have the flexibility to alter the above allocations.

e) **Appropriate benchmark to compare performance and basis for choice of benchmark:**

The Clients' portfolio is to be invested in listed equities. The portfolio created could be formed from investments in companies with any market capitalization and so could include large cap and/or mid cap. The proportion of large and mid-cap could vary significantly from time to time.

Therefore, the appropriate benchmark chosen to compare performance of the Portfolio Manager is the S&P BSE 500 TRI.

f) **Index Indicative tenure or investment horizon:**

The Portfolio Manager will be making investments with a minimum 3-5 years investment horizon, and can be reviewed/amended based on investment philosophy.

However, the Portfolio Manager may buy/sell/rebalance the stocks in the Portfolio before the indicative time horizon of 3-5 years for reasons including, but not limited to, the Portfolio Manager's latest views on the attractiveness of the investments made.

g) **Risks associated with the investment approach:** Please refer clause 6 for Risk Factors

B) NON-DISCRETIONARY SERVICES:

The Portfolio Manager will provide Non-discretionary Portfolio Management Services as per express prior Instructions issued by the Client from time to time, in the nature of investment consultancy/management, and may include the responsibility of managing, renewing and reshuffling the portfolio, buying and selling the securities, keeping safe custody of the securities and monitoring book closures, dividend, bonus, rights, etc. so as to ensure that all benefits accrue to the Client's Portfolio, for an agreed fee structure and for a definite described period, entirely at the Client's risk.

C) ADVISORY SERVICES:

The Portfolio Manager will provide Advisory Portfolio Management Services, in terms of the SEBI (Portfolio Manager) Regulations, 2020. The Portfolio Manager's responsibility shall include advising on the portfolio strategy, sectoral allocation and investment and divestment of individual securities on the client portfolio, for an agreed fee structure, entirely at the Client's risk.

The Portfolio Manager shall be solely acting as an advisor to the portfolio of the client and shall not be responsible for the investment / divestment of securities and / or administrative activities on the clients' portfolio.

MINIMUM INVESTMENT AMOUNT:

The Client shall deposit with the Portfolio Manager, an Initial Corpus consisting of funds of an amount prescribed by the Portfolio Manager for a specific portfolio, subject to minimum investment amount as specified under SEBI Regulations, as amended from time to time. The client may on one or more occasion or on a continual basis, make further placement of funds under the service.

POLICY FOR INVESTMENT IN ASSOCIATE / GROUP COMPANIES:

The Portfolio Manager will not invest in its subsidiary or associate or group companies or in any of the Related Party of the Portfolio Manager.

6. RISK FACTORS:

- Securities investments are subject to market risks and there is no assurance or guarantee that the objectives of investments will be achieved.
- Past performance of the Portfolio Manager is not indicative of its future performance.
- Investors are not being offered any guaranteed or assured return/s i.e., either of Principal or appreciation on the portfolio.

- Investors may note that Portfolio Manager's investment decisions may not be always profitable, as actual market movements may be at variance with anticipated trends.
- The liquidity of the Portfolio's investments is inherently restricted by trading volumes in the securities in which it invests.
- The valuation of the Portfolio's investments, may be affected generally by factors affecting securities markets, such as price and volume volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the Government, taxation laws or any other appropriate authority policies and other political and economic developments which may have an adverse bearing on individual securities, a specific sector or all sectors including equity and debt markets. There will be no prior intimation or prior indication given to the Clients when the composition / asset allocation pattern changes.
- Risk Arising from Investment Objective, Investment Strategy and Asset Allocation Trading volumes, settlement periods and transfer procedures may restrict the liquidity of the investments made by the Portfolio. Different segments of the financial markets have different settlement periods, and such periods may be extended significantly by unforeseen circumstances. The inability of the Portfolio to make intended securities purchases due to settlement problems could cause the Portfolio to miss certain investment opportunities. By the same rationale, the inability to sell securities held in the portfolio due to the absence of a well-developed and liquid secondary market for debt securities would result, at time, in potential losses to the Portfolio, in case of a subsequent decline in the value of securities held in the Portfolio.
- The Portfolio Manager may, considering the overall level of risk of the portfolio, invest in lower rated/unrated securities offering higher yields and/or higher capital appreciation potential. This may increase the risk of the portfolio. Such investments shall be subject to the scope of investments as laid down in the Agreement.
- Securities, which are not quoted on the stock exchanges, are inherently illiquid in nature and carry a larger amount of liquidity risk, in comparison to securities that are listed on the exchanges or offer other exit options to the investor, including a put option. The Portfolio Manager may choose to invest in unlisted securities that offer attractive yields and/or higher capital appreciation potential. This may however increase the risk of the portfolio. Such investments shall be subject to the scope of investments as laid down in the Agreement.
- While securities that are listed on the stock exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges. Money market securities, while fairly liquid, lack a well-developed secondary market, which may restrict the selling ability of the Portfolio(s) and may lead to the investments incurring losses till the security is finally sold.
- **Interest Rate Risk:** changes in interest rates may affect valuation of the portfolio. Debt markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby of possible movements in the valuations of Portfolios.
- **Liquidity or Marketability Risk:** Certain securities may become impossible to sell or not marketable due to the absence of any potential buyers. In such situations, the investment in the securities may be lost or its realization may be inordinately delayed.
- **Credit Risk:** Credit Risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security). Because of this risk corporate debentures are sold at a higher yield above those offered on Government

Securities which are sovereign obligations and carry lower credit risk. Normally, the value of a fixed income security will fluctuate depending upon the changes in the perceived level of credit risk as well as any actual event of default. The greater the credit risk, the greater the yield required for someone to be compensated for the increased risk.

• **Risks arising out of Non-Diversification**

Diversification of portfolio across asset classes, investment themes, sectors and securities are normally construed to be less risky for investors. It is to be noted that the portfolio is likely to be more focused on a single asset class, i.e., equities which inherently can be volatile. Further the portfolio could be subject to more risk on account of its concentration of investments into a few sectors or a limited number of securities. In addition to limited/inadequate diversification across asset classes, themes and sectors, the portfolio could be prone to higher risk on account of non-diversification across capitalizations, particularly if the portfolio has a bias towards mid-cap and small cap companies

• **Specific Risk factors pertaining to Unlisted Securities**

In case of a Company's IPO, the investment maybe subject to regulatory lock in, if any, as prescribed by SEBI from time to time. Many of such investments made by the Portfolio Manager may be illiquid, and there can be no assurance that the Portfolio Manager will be able to realize value from such investments in a timely manner. Since such investment may involve a high degree of risk, poor performance by such investments could lead to adverse effects on investor portfolios.

- The Portfolio Manager is a new established entity. It is incorporated on 28th February 2019. We hereby declare that the Portfolio Manager has no past track record/ experience as Portfolio Manager.

10. AUDIT OBSERVATIONS:

There are no observations made by the Statutory Auditor of the Portfolio Manager for the Financial Year ended 31st March 2024 and the previous two financial years.

11. NATURE OF EXPENSES:

The following are indicative types of costs and expenses for clients availing the Portfolio Management services. The exact basis of charge relating to each of the following services shall be annexed to the Portfolio Management Agreement or the agreements for each of the services availed by the client at the time of execution of such agreements.

a) Portfolio / Investment Management & Advisory Fees:

The Portfolio / Investment Management and Advisory fees charged may be a fixed fee (range 0% to 3.00% per annum) or a performance / profit sharing fee (0% to 25% of portfolio returns) or a combination of both as detailed in the Fee Annexure to the Agreement. The Fees may be charged periodically at the end of a specified tenure as agreed between the Client and the Portfolio Manager.

The Portfolio Manager shall comply with SEBI circular IMD/DF/13/2010 dated 5th October 2010 and SEBI/HO/IMD/DFI/CIR/P/2020/26 dated 13th February 2020 in respect of the matters dealt with by the said circulars with respect to fees and charges.

Pursuant to the aforesaid circulars, for charging of performance/ profit sharing fee, performance/ profit of the portfolio shall be computed on the basis of highwater mark principle over the life of the investment, as prescribed by the aforesaid circulars.

High Water Mark shall be the highest value that the portfolio/account has reached. Value of the portfolio for computation of high watermark shall be taken to be the value on the date when performance fees are charged. For the purpose of charging performance fee, the frequency shall not be less than quarterly. The Portfolio Manager shall charge performance-based fee only on increase in portfolio value in excess of the previously achieved high water mark.

All fees and charges shall be levied on the actual amount of Clients' assets under management. High Water Mark shall be applicable for discretionary and non-discretionary services and not for advisory services. In case of interim contributions/ withdrawals by Clients, performance fees may be charged after appropriately adjusting the high-water mark on proportionate basis.

b) Custodian/Depository Fees

The Custody of all Securities of the Clients shall be with the Custodian, appointed by the Portfolio Manager. The Custodian shall act on the instructions of the Portfolio Manager. All such custodian fees charged by the Custodian shall be payable by the Client. The Portfolio Manager shall not be liable for any act of the Depository Participant, done with or without the instructions of the Portfolio Manager, which may cause or is likely to cause any loss or damage to the Clients.

Custody Charges – Up to 5bps of the Client's assets under management per year, payable on a monthly/quarterly/annual basis as determined by the portfolio manager.

- c) Fund Accounting Fees: On Actuals
- d) Registrar and Transfer Agent's Fees: On Actuals
- e) Brokerage and Transaction Cost: On Actuals
- f) Demat Charges: On Actuals
- g) GST + Securities Transaction Tax (STT) + Exchange Transaction Charges + Stamp Duty + any other statutory levies: On Actuals
- h) Bank Charges: On Actuals
- i) Fees, Exit Loads and Charges in respect of Investment in Mutual Funds: On Actuals
- jj) Certification charges or professional Charges: On Actuals
- k) Taxes as may be applicable from time to time.
- l) Such other cost and expenses incurred by the Portfolio Manager directly in connection with the provision of Portfolio Management Services – On actuals

Note: All the Operating expenses excluding brokerage, over and above the fees charged for Portfolio Management Service, shall not exceed 0.50% per annum of the client's average daily Assets under Management (AUM). It shall include charges payable for outsourced professional services like accounting, auditing, taxation and legal services etc. for documentation, notarizations, certifications, attestations required by Bankers or regulatory authorities including legal fees and day-to-day operations charges etc.

Distributor's Commission: If the Client is on-boarded through a Distributor then the Portfolio Manager shall pay a percentage of management, performance and / or other fees to the Distributor as mutually

agreed between the Portfolio Manager and the Distributor. The percentage of Distributor commission shall be disclosed to the Client at the time of signing of Contract with the client and whenever there is any change. The Distributor's commission shall be paid from the total management and performance fees as mutually agreed between the Portfolio Manager and the Client in the PMS Agreement.

12. TAXATION:

- 12.1 Clients will be responsible and liable for all taxes under the provisions of the Income Tax Act, 1961 for any income generated out of the investment made in the portfolio management services including advance tax obligations. In view of the individual nature of tax consequences on any income, capital gains or otherwise, each Client is advised to consult / his / her / its tax advisor with respect to the specific tax consequences to him/ her / it with respect to participation in the portfolio management services.

The Portfolio Manager will provide adequate statements to the client for accounting and tax purposes. The Portfolio Manager shall not be responsible for assisting in or completing the fulfillment of the client's tax obligations.

Income Tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Current tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the company and its subsidiaries and associates operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred tax

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognized if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred tax assets are recognized for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

Deferred tax liabilities are not recognized for temporary differences between the carrying amount and tax bases of investments in subsidiaries and associates and interest in joint arrangements where the company is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Current and deferred tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

12.2 Tax deduction at source

Tax is required to be deducted at source for non-residents by the authorized dealer under section 195 of the Income Tax Act, 1961 ('the Act'). If required, tax will be withheld for non-residents. If any tax is required to be withheld on account of any future legislation, the Portfolio Manager shall be obliged to act in accordance with the regulatory requirements in this regard.

Any person entitled to receive any sum or income or amount, on which tax is deductible under Chapter XVIII, shall furnish his Permanent Account Number to the person responsible for deducting such tax, failing which tax shall be deducted at the higher of the following rates, namely:

- (i) at the rate specified in the relevant provision of this Income Tax Act; or
- (ii) at the rate or rates in force; or
- (iii) at the rate of twenty per cent.

Health and Education cess @ 4% is applicable.

12.3 Advance tax installment obligations

It shall be the Client's responsibility to meet the obligation on account of advance tax installments payable on the due dates under the Act.

12.4 Details under FATCA/ Foreign Tax Laws

Tax regulations require us to collect information about each investor's tax residency. If you have any questions about your tax residency, please consult your tax advisor. Foreign account tax compliance provisions (commonly known as FATCA) are contained in the US Hire Act 2010. Applicants (including joint holders, Guardian, POA holder) are required to refer and mandatorily fill/ sign off a separate "FATCA declaration form". Applications without this information will be deemed incomplete and are liable to be rejected. Investors are requested to note that the contents of the information to be provided in the application form may undergo a change on receipt of communication/ guidelines from SEBI.

13. ACCOUNTING POLICIES:

- A. TORUS ORO PORTFOLIO MANAGEMENT PRIVATE LIMITED shall maintain a separate Portfolio record in the name of the client to account for the assets of the client and any receipts, income and expenses in connection therewith as provided under SEBI Regulations (Portfolio Managers) Regulations 2020.
- B. For every Client Portfolio, TORUS ORO PORTFOLIO MANAGEMENT PRIVATE LIMITED shall keep and maintain proper books of accounts, records and documents, for the Client, on mercantile system of accounting, so as to explain its transactions and to disclose at any point of time the financial position of the Client Portfolio and Financial Statements and in particular give a true and fair view of the state of affairs.

- C. The following Accounting Policies are proposed to be followed for the purpose of maintaining books of accounts, records for the client.
1. For the purposes of the financial statements, TORUS ORO PORTFOLIO MANAGEMENT PRIVATE LIMITED shall carry all investments in the balance sheet at cost.
 2. Investments introduced by the client in his portfolio will be booked at the market value as of the date of introduction to the portfolio.
 3. Dividend income earned by a Client shall be recognized, not on the date the dividend is declared, but on the date the shares are quoted on an ex-dividend basis. For investments which are not quoted on a stock exchange, dividend income shall be recognized on the date of actual receipt.
 4. In respect of all interest-bearing investments, income shall be accrued on a day-to-day basis as it is earned. Therefore, when such investments are purchased, interest paid for the period from the last interest due date up to the date of purchase shall not be treated as a cost of purchase but shall be debited to Interest Recoverable Account. Similarly, interest received at the time of sale for the period from the last interest due date up to the date of sale shall not be treated as an addition to sale value but shall be credited to Interest Recoverable Account.
 5. In determining the holding cost of investments and the gains or loss on sale of investments, the First-in-First-out (FIFO) method shall be followed.
 6. Transactions for purchase or sale of investments shall be recognized as of the trade date and not as of the settlement date, so that the effect of all investments traded during a financial year is recorded and reflected in the financial statements for that same year.
 7. Bonus shares to which the Client becomes entitled shall be recognized only after the ex-date of the bonus issuance of the original shares.
 8. Rights entitlement shall be recognized after the allotment of the new shares as per the rights entitlement.
 9. The cost of investments acquired or purchased shall include brokerage, service tax, securities transaction tax, stamp duty and any other charges customarily included in the broker's contract note.
 10. In respect of privately placed debt instruments any front-end discount offered shall be reduced from the cost of the investment.
 11. All other income & expenses shall be accounted on accrual basis.
 12. Investments in equities and exchange traded funds will be valued at the closing market prices at the stock exchange (Bombay Stock Exchange (BSE) or National Stock Exchange (NSE) as the case may be). In case any securities are not traded on the valuation date, the last available traded price shall be used for the valuation of those securities. Debt instruments will be valued at the clean price.
 13. Investments in units of Mutual Funds shall be valued at the repurchase price or the NAV published by the Mutual Fund Houses on the date of the report. Where no NAV is published for a particular day, the last working day's published NAV will be taken for valuation purpose.
 14. Open positions in derivative transactions, will be marked to market on the valuation date.
 15. Pending listing on BSE/NSE, securities relating from a demerger are valued at their apportioned costs as per the ratios / values in terms of the scheme.
 16. Private equity / Pre IPO placements will be valued at cost or at an available last deal price at which the company has placed similar securities to other inventors.
 17. Unrealized gain / losses are the difference, between the current market value / Net Asset Value and the historical cost of the securities.
 18. The Portfolio Manager and the client can adopt any specific norms or methodology for valuation of investments or accounting, if the same is mutually agreed between them.

14. INVESTOR SERVICES:

i. Name, Address and Telephone Number of the Investor Relation Officer, who shall attend to the investor queries and complaints:

Name : Mr. Ashwani Shukla

Registered Address 2nd Floor, ICC Chambers, Saki Vihar Rd, Muranjan Wadi, Marol, Andheri East, Mumbai, Maharashtra 400072

Corporate Address: –
2nd Floor, ICC Chambers, Saki Vihar Rd, Muranjan Wadi, Marol, Andheri East, Mumbai, Maharashtra 400072

Telephone : +91 9343481944

Email : connect@torusoropms.com / pmscompliance@torusoropms.com

The official mentioned above will ensure prompt investor services. The Portfolio Manager will ensure that this official is vested with the necessary authority, independence and the wherewithal to handle investor complaints.

ii. Grievance redressal and dispute settlement mechanism

Grievances, if any, that may arise pursuant to the Agreement entered into shall as far as possible be redressed through the administrative mechanism by the Portfolio Manager and are subject to SEBI (Portfolio Managers) Regulations 2020 and any amendments made thereto from time to time.

The Portfolio Manager will endeavor to resolve Investor Grievance at the earliest. All the grievances can be sent to the designated email id: connect@torusoropms.com The nature of the grievance, the type of account, and the name and contact information of the client will be recorded.

If the abovementioned grievance has not been resolved or a response has not been received from the Portfolio Manager, the issue can be escalated to Ms. Anushree Kubde, Compliance Officer by sending an email to pmscompliance@torusoropms.com

If the Investor remains dissatisfied with the remedies offered, the investor and the Portfolio Manager shall abide by the following mechanisms:-

All disputes, differences, claims and questions whatsoever arising between the Client and the Portfolio Manager and/or their respective representatives shall be settled in accordance with the provision of The Arbitration and Conciliation Act, 1996 or any statutory requirement, modification or re-enactment thereof for the time being in force. Such arbitration proceedings shall be held at Mumbai or such other place as the Portfolio Manager thinks fit. Arbitration shall be held in English. The Arbitration Award shall be treated as final and shall be binding on the Parties. This arbitration clause is subject to the jurisdiction of courts in Mumbai only.

Each party will bear the expenses / costs incurred by it in appointing the arbitrator and for the arbitration proceedings. However, the cost of appointing the presiding arbitrator will be borne equally by both the Parties. Investor shall have the recourse to visit the SEBI SCORES

(<http://scores.gov.in>) portal for lodging their complaints, if any in case they are not satisfied with the response of the Portfolio Manager. SCORES enables online tracking of status of a complaint. Investors who are unable to access the online platform continue to have the option to register their complaints in physical form.

15. GENERAL:

The Portfolio Manager and the Client can mutually agree to be bound by specific terms through a written bilateral agreement between themselves in addition to the standard PMS Agreement. The Portfolio Manager will outsource functions of accounting, calculation of Net Asset Value, custody and such other services as may be determined by the Portfolio Manager.
